

Low Voltage Self-Adhesive Waterproof LED Strip Lights for Cabinet / TV Background Wall / Bedroom

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YSR60X5630RA-F3
- Price: Negotiable
- Delivery Time: Within 48 hours
- Payment Terms: T/T
- Supply Ability: 100,000 meters per week

Product Specification

- Color: Red/Yellow/Blue/Green/White/Warm White
- Wavelength/ CCT: 2800-7500k
- LED Qty/Roll: 150pcs/roll
- Voltage: DC12V
- Power: 72W/roll
- Highlight: **Waterproof LED Strip Lights,
Self-Adhesive LED Strip Lights,
LED Strip Lights for Cabinet**

Product Description

Light strip LED light strip living room ceiling low voltage 24V cabinet wine cabinet self-adhesive waterproof TV background wall bedroom light strip product introduction

1. Product Overview

This product is a low-voltage 24V LED light strip, suitable for living room ceiling, cabinet, wine cabinet, TV background wall and bedroom and other scenes. It adopts self-adhesive design, which is convenient for installation and waterproof to ensure stable operation in various environments.

2. Product Features

Low-voltage 24V safe power supply: It adopts 24V low-voltage power supply, which is safer than traditional high-voltage light strips, reduces the risk of electric shock, and is suitable for home and commercial places.

High brightness: It adopts LED light source to provide high-brightness lighting effect and create a comfortable atmosphere for the space.

Self-adhesive design: The back of the light strip comes with self-adhesive tape, which can be easily pasted on various flat surfaces and is easy to install.

Waterproof performance: The product has waterproof function and can be used in humid environments, such as bathrooms, kitchens, etc.

Multi-scene application: It is suitable for living room ceilings, cabinets, wine cabinets, TV background walls and bedrooms and other scenes to meet the lighting needs of different spaces.

3. Product Specifications

Input voltage: 24V

Power: Depends on the specific model and length, such as 1 meter 24V/120 beads/12W/white light, etc.

Color temperature: You can choose a variety of color temperatures such as warm white light and natural light according to your needs.

Waterproof level: IP0X (Please note that although the product has waterproof function, it is not completely waterproof. Please avoid soaking in water for a long time.)

Number of LED lamp beads per meter: 120 beads/meter (the specific number may vary depending on the model)

4. Installation and use

Installation: Tear off the self-adhesive tape on the back of the light strip and stick it on the flat surface that needs to be illuminated. Be careful to keep the light strip flat and avoid bending or twisting.

Connect the power supply: Use a dedicated low-voltage power adapter to connect the light strip and the power socket. Please make sure that the output voltage of the power adapter matches the input voltage required by the light strip.

Switch control: The switch and brightness adjustment of the light strip can be controlled by manual switch or intelligent control system.

5. Precautions

Do not use it for a long time in a humid environment to avoid affecting the product life.

Do not bend or twist the light strip excessively to avoid damaging the lamp beads or circuits.

Do not expose the light strip to high temperature to avoid affecting its performance and life.

Please pay attention to safety when using it to avoid the risk of electric shock. If you have any questions or problems, please consult us.
