

LED Non-Main Light Aluminum Groove Light Belt Ceiling Concealed Black Embedded Surface Mounted Linear Light

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen, China
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R120X2835RAF3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*120*10
- Delivery Time: 48hours
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

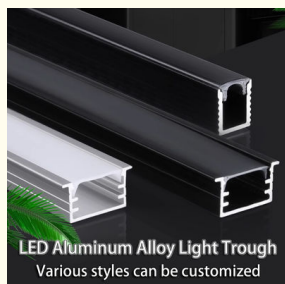

Product Specification

- Product Description: 10mm Deep Aluminum LED Profile Without Flange Option 1), PMMA Opal Matte Diffuser 2), PMMA Semi-clear Matte Diffuser 3), PMMA Clear Diffuser
- Highlight: **Aluminum Groove Light Belt,**
Aluminum Groove Surface Mounted Linear Light
Black Embedded Surface Mounted Linear Light

Product Description

LED non-main light aluminum groove light belt ceiling concealed black embedded surface mounted linear light product is a lamp that combines modern lighting technology and design aesthetics, and is widely used in lighting decoration of homes, businesses and public spaces. The following is a detailed introduction to the product:

1. Basic Definition

LED Linear Light Aluminum Alloy U-shaped Non-main Light Aluminum Groove Light Belt Ceiling Concealed Black Embedded Surface Mounted Linear Light is a linear lamp that uses LED as a light source and combines aluminum alloy U-shaped groove and aluminum groove light belt design. This lamp can be installed in the ceiling concealed or surface mounted, has a black appearance, and is suitable for the lighting needs of the non-main light design style.

2. Main Features

Energy saving and environmental protection: It uses LED light source, which has the characteristics of low power consumption, long life and high light efficiency, which conforms to the concept of modern green lighting.

Beautiful design: The U-shaped aluminum alloy groove is combined with the black light belt, with smooth lines and a simple and generous appearance, which can enhance the visual effect of the space.

Flexible installation: It supports both ceiling concealed installation and surface installation, and you can choose the appropriate installation method according to actual needs.

Widely applicable: Suitable for lighting decoration in living rooms, bedrooms, restaurants, commercial shops, exhibitions and other places.

Commercial Home Scene Display

3. Product specifications and parameters

(Note: The following parameters are examples, and the specific values may vary due to different brands and models)

Light source type: LED

Light source power: Depends on the specific model, such as 3W/m, 5W/m, etc.

Color temperature: Can be selected according to needs, such as warm white light (3000K), neutral light (4000K), cold white light (6000K), etc.

Luminous flux: Depends on the power and efficiency of the light source, such as 300lm/W, etc.

Lighting angle: Generally 120° or wider

Material: Aluminum alloy U-shaped groove, PC lampshade, aluminum lamp body, etc.

Input voltage: Generally AC220V or DC low voltage (such as 12V, 24V)

Color rendering index: High color rendering, such as Ra≥90, can truly restore the color of objects

Size: The length can be customized according to needs, and the width and height of the U-shaped groove also have a variety of specifications to choose from

Commercial Home Scene Display

4. Installation and use

1. Installation method

Ceiling concealed installation: It is necessary to reserve an installation position in the ceiling, fix the lamp on the ceiling keel or bracket, and then embed the light strip into the U-shaped groove.

Surface installation: The lamp can be directly installed on the wall or ceiling, fixed by brackets or screws.

2. Precautions for use

Before installation, make sure the power is turned off and check whether the lamp and accessories are intact.

During installation, please follow the instructions or the guidance of professionals to ensure that the lamp is firmly installed and the wiring is correct.

During use, please be careful to avoid impact or extrusion of the lamp to avoid affecting its service life and lighting effect.

If you need to clean the lamp, please wipe it gently with a soft dry cloth and avoid using chemical detergents or water to clean it directly.

Commercial Home Scene Display

5. Application scenario

LED linear light aluminum alloy U-shaped without main light aluminum groove light strip ceiling concealed black embedded surface mounted linear light is suitable for lighting decoration in various places, such as:

Home space: lighting and atmosphere creation in living room, bedroom, dining room and other areas.

Commercial store: display lighting and decorative lighting in places such as clothing stores, jewelry stores, and cafes.

Exhibition display: exhibit lighting and atmosphere creation in museums, art galleries, exhibition halls and other places.

Public space: lighting and guide signs in hotel lobbies, conference rooms, corridors and other areas.

In short, LED linear light aluminum alloy U-shaped without main light aluminum groove light belt ceiling concealed black embedded surface mounted linear light products have become an important product in the field of modern lighting with its unique design, excellent performance and wide range of application scenarios.
