

Low-Voltage Smart Light Strip With High CRI Household 120-Bead For Living Room Bedroom Kitchen

Our Product Introduction

Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YS-R30X3528RA-F3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

Product Specification

- Input Voltage(v): DC12V/24V,24V
- Type: LED Bar Lights
- Cri (ra>): 85,75
- Working Lifetime(hour): 25000,100000
- Lamp Body Material: Copper,PVC
- Working Temperature(): -20 - 50,-20 - 40,-25 - 60
- Lamp Power: 14.4W/M,12W/M,57.6W/M,60W
- Light Source: LED
- Item Type: Light Strips
- Led Light Source: SMD5050,SMD2835,LED,SMD 5050 Epistar Led UV 395nm
- Emitting Color: Blue,red/ Yellow/ Blue/ Green/ White/ Warm White/ RGB
- Color Temperature(cct): 2700-7000K,blue,5500K-7500K
- Application: Decorative Lighting
- Product Name: Like This SMD2835 Waterproof LED Strip

Dense Lamp Beads Emit Light Evenly
There are 120 lamp beads per meter length

Product Description

Low-voltage smart light strip with high CRI, household 120-bead living room, bedroom, ceiling and kitchen light strip products usually have the following features and detailed introduction:

1. Product features

Low voltage safety:

Adopting 24V low-voltage design, constant voltage to prevent electric shock, can be touched directly by hand, and is safer during installation.

High color rendering index (Ra):

Ra≥90 ultra-high color rendering index can restore the true color of objects and make the home environment more warm and natural.

Intelligent control:

Supports linkage with smart APPs such as Mijia, realizes intelligent dimming, voice control and other functions, convenient operation, and improves the quality of life.

High brightness and uniformity:

There are 120 lamp beads per meter, the light is uniform without dark areas, the light is emitted at a 120° light angle, and the light effect is more uniform.

Flexible cutting:

Can be cut as you like, flexible lighting, to meet the needs of different scenes.

Ultra-narrow edge design:

8mm ultra-narrow edge design, easy to fit the light trough and the surface of the object, beautiful and generous.

Multiple color lights:

Color temperature and brightness can be adjusted at will, suitable for a variety of places, such as living room, bedroom, ceiling, kitchen, etc.

2. Product specifications

Voltage: 24V

Number of lamp beads: 120 beads/m

Light angle: 120°

Width: 8mm (ultra-narrow edge design)

Connection method: welding-free connector, easy to connect, high transparency, no light blocking

Control method: support smart APP linkage such as Mijia, intelligent dimming, voice control

3. Application scenarios

Living room: as a ceiling light strip to create a warm and comfortable atmosphere.

Bedroom: Use as a bedside background wall or ceiling to improve the quality of the sleeping environment.

Kitchen: Install under the cabinet or ceiling to increase the lighting brightness and facilitate cooking operations.

4. Brand and selection

There are many low-voltage smart light strips with high CRI household 120 beads available on the market, such as well-known brands such as YSENLED. When choosing, you can make a comprehensive consideration based on personal preferences, budget and actual needs.
