Product Description

Super bright LED light with three-color light-changing double-row self-adhesive line light, as an ideal choice for living room, outdoor and ceiling decoration, has many characteristics and advantages. The following is a detailed introduction to the product:

1. Product Features

Super bright lighting:

Adopt high-quality LED lamp beads to provide super bright lighting effects, meeting the lighting needs of various occasions such as living room and outdoor.

Three-color light-changing:

Supports a variety of light color changes such as white light, warm light, neutral light, etc., which can be freely adjusted according to different occasions and moods to create a comfortable atmosphere.

Double row design:

The double row of lamp beads design makes the light more uniform and soft, the lighting range is wider, and the overall lighting effect is improved.

Self-adhesive line light:

Equipped with self-adhesive backing, it is easy and quick to install, and can be easily pasted in the desired position without additional fixing tools.

Waterproof performance:

The waterproof design is suitable for outdoor and humid environments to ensure that the lamp can work normally in bad weather.

Ceiling decoration:

The elegant appearance design and a variety of color options make it an ideal choice for ceiling decoration, enhancing the beauty of home or commercial space.

2. Applicable scenarios

Living room decoration: Provide soft and bright lighting for the living room, and change the light color according to different time periods and needs to create a warm and comfortable home environment.

Outdoor lighting: Suitable for outdoor spaces such as courtyards, terraces, balconies, etc., provide sufficient lighting brightness, and the waterproof design ensures that the lamps are stable and reliable in outdoor environments.

Ceiling decoration: As part of the ceiling decoration, it integrates with the overall decoration style to

enhance the sense of space hierarchy and aesthetics.

3. Product specifications and parameters (examples)

Please note that the following specifications and parameters are only examples, and the specific values may vary depending on different brands and models.

Brand: According to market supply (such as YSENLED) and other well-known brands.

Model: Depends on the specific product, such as 220V-LED-01, etc.

Power: 40-79W (the specific power depends on the product model and length).

Voltage: 220V (suitable for home and general commercial power environments).

Color temperature: cold light (above 5000K), and supports three-color light change at the same time.

Length: It can be customized according to actual needs, such as 1 meter, 5 meters, 10 meters and other different length specifications.

Material: Made of high-quality PC material and aluminum alloy heat dissipation structure to ensure that the lamp is durable and has good heat dissipation performance.

Indoor Use Scenarios

4. Purchase suggestions

When purchasing, it is recommended to choose appropriate specifications such as power, length and color according to actual needs.

Give priority to well-known brands and formal channels to purchase to ensure product quality and after-sales service.

Check the product manual and user reviews to understand the detailed parameters and usage effects of the product.

Outdoor Use Scenarios

In summary, the ultra-bright LED light strip with three-color variable light double-row self-adhesive wire lamp is a multi-functional lamp product that integrates lighting and decoration, suitable for a variety of occasions and scenes.
