

Furniture Embedded LED Layer Light Cord for Wine Cabinet Strip

Our Product Introduction

for more products please visit us on led-stripslights.com

Basic Information

- Place of Origin: SHENZHEN CHINA
- Brand Name: YSENLED
- Certification: CE ROHS LVD EMS
- Model Number: YSR60X5630RA-F3
- Minimum Order Quantity: 10
- Price: Negotiable
- Packaging Details: 10*1000*20
- Delivery Time: 2DAYS
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 100,000 meters per week

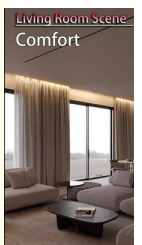

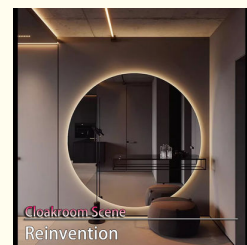

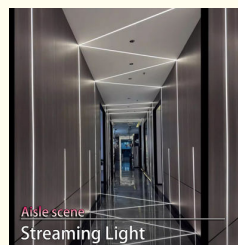

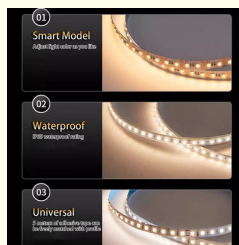

Product Specification

- Odm: Available
- Cri: 75
- Waterproof Grade: IP68
- Lumen Per Led: 22-24LM/CRI:83/81
- Oem Odm: Accepted
- Color: RGB (Red, Green, Blue)
- Fire Resistant: Yes
- Fixture Feature: Dimmable
- Storage Temperature: -20 ~60
- Meter Per Reel: 5meters, 10meters, 50meters
- Led Size: SMD 5050
- Material: Silicone
- Work Voltage: 220 V
- Remote Control Included: Yes
- Dimention: 3 Meter Per Reel

Product Description

The detailed introduction of the embedded LED layer light cord of the wine cabinet light strip can be elaborated from the following aspects:

1. Product Overview

Our Product

The embedded LED layer light cord of the wine cabinet light strip is a lighting solution designed for furniture such as wine cabinets and wardrobes. It combines the energy-saving and high efficiency of LED lighting with the convenience of magnetic detachability, adding a warm and flexible lighting effect to the home environment.

2. Product Features

LED lighting: LED is used as the light source, which has the advantages of energy saving, environmental protection, long life and high luminous efficiency. The LED light is soft and not dazzling, which can well highlight the texture of the wine in the wine cabinet.

Embedded design: The product adopts an embedded installation method, which does not take up space and is beautiful and generous. It

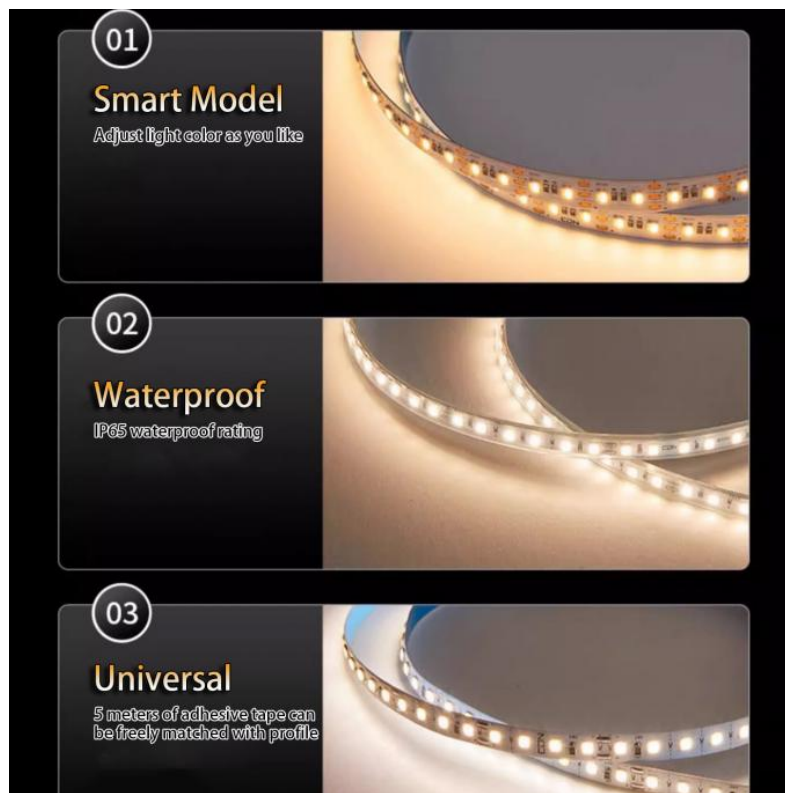

can be perfectly integrated into furniture such as wine cabinets to enhance the overall sense of grade of the home.

Light cord separation: The light strip and the power cord are separated, which is convenient for users to cut and connect according to their needs. This design makes installation and replacement more flexible and convenient.

Magnetic detachable: The light strip is equipped with a magnetic adsorption device, which can be easily adsorbed on the wine cabinet layer board for quick installation and disassembly. At the same time, this design is also convenient for users to carry out daily cleaning and maintenance.

Intelligent control: Some products also have intelligent sensing functions, such as human body sensing, touch sensing, etc., which can automatically sense human activities and turn on lighting, improving the convenience and comfort of use.

3. Product specifications and parameters

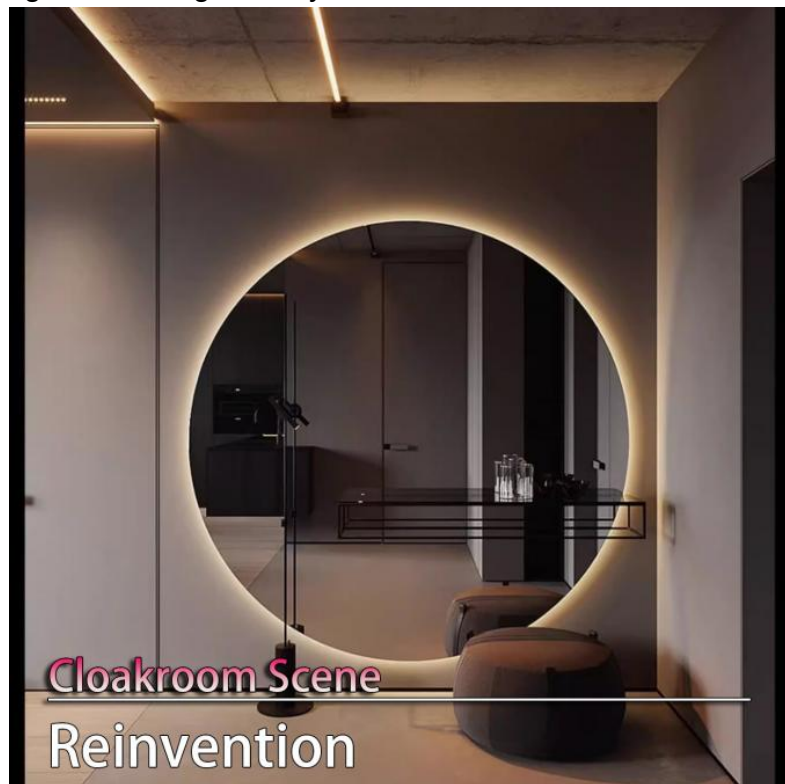

Light source type: LED

Voltage: Generally low voltage (such as 12V or 24V), safe and reliable

Color temperature: can be selected according to needs, such as warm white light (3000K-3500K), neutral light (4000K-4500K), cold white light (5000K-6500K), etc.

Length: customizable, generally ranging from a few hundred millimeters to a few meters

Power: depends on the length of the light strip and the density of the light source, generally between a few watts and tens of watts

Living Room Scene

Comfort

4. Usage scenario

Wine cabinet light strip embedded LED layer light line separation magnetic detachable products are widely used in wine cabinets, wardrobes and other furniture in homes, hotels, restaurants and other places. It can provide these furniture with uniform and soft lighting effects, and enhance the beauty and ornamental value of the display of items.

5. Installation and Maintenance

Installation: First determine the installation position and length of the light strip, then cut and connect it. Then fix the light strip on the wine cabinet layer board through the magnetic adsorption device, and connect the power cord.

Maintenance: Clean the surface of the light strip and the magnetic adsorption device regularly to keep it clean and tidy. If there is any damage or failure, it can be replaced or repaired in time.

6. Precautions

During installation and use, please be sure to follow the product manual and safety specifications for operation.

Avoid exposing the light strip to humid, high temperature or flammable environments to avoid affecting its service life and safety performance. If you need to replace or repair the light strip, be sure to disconnect the power supply and wait for it to cool completely before operating.

In summary, the wine cabinet light strip embedded LED layer light line separation magnetic detachable product has become a new solution in the field of modern home lighting with its unique design and superior performance.
